During 2014-2015 System Automation Service Ltd. was a subcontractor of Bilfinger GreyLogix GmbH in the biogas plant construction project in Ukraine.

The works included:

- Creation of drawings for the customer and engineering office concerning the electrical Installation
- Build cable ways and installation of cables for drives, VSD's and instrumentation, and Fibre optical
- Support with local standards and regulations
- Support with the Loopcheck on site and independent Loopcheck after BGx left the site
- Installation of a lightning protection system
- Site management for the electrical part of the project

SAS Ltd has proven itself as a skilled professional with a strong knowledge of industrial automation equipment. We hereby recommend SAS as a trustworthy partner for any company looking for local Ukrainian contractors.

Sincerely,

i.A. Per Wegner

i.A. Thomas Haack
